

Dear Potential Speaker,

As you may know, the NERCE (Northeast Regional Conference and Exhibition) meeting is sponsored by the Northeast Section of the American Association of Clinical Chemistry, three chapters of the Clinical Laboratory Management Association (two from MA and one representing NH and VT) and the New England Chapter of the Clinical Ligand Assay Society. I am the Chair of speaker committee this year and I would like to know if you would be interested in being a speaker or providing a speaker for our conference.

Topics range from Laboratory Management to Changes in Technology. A fifty minute session with 10 minutes for questions and answers is the current format. The meeting will be held in Boxborough MA on Tuesday and Wednesday 13-14 April, 2010. I hope you will be interested as it will be a great meeting. Please let me know if you are interested and what day and time would be convenient for you at this point

A listing of past speakers, the most recent meeting program and other pertinent information can be found on our dedicated web site: www.nerce.org.

Please respond as soon as possible.

Best Regards,

Speaker Chairperson,
Northeast Region Conference and Exhibition
